Online Learning Advisory Council
Meeting Minutes
November 3, 2023 1:00pm (Zoom)

1. Approval of September Minutes. The minutes were approved as written.
2. Canvas updates-Ed Lovitt spoke about several items.
   a. Ed is contacting the professors using Yuja as the proctoring tool will be sunset December 1, 2023. We cannot use proctoring functionality as of January 1. Ed is telling people to make plans to look for another proctoring tool. Respondus has its restrictions, and Yuju via Canvas allows for flexibility. Ed will invite the Ed Tech Advisory Committee to discuss options.
   b. Blackboard Ally checks for accessibility. It has been renewed for one year and perhaps we should look for something else. Note that when all course content is copied, even if you do not use all files, Ally will give a score based on accessibility. (Red is not good, green is good). Consider looking at content and deleting things you no longer use in your course.
   c. Turnit in has AI functionality. We may explore using other options. Be aware that there are false positives that report cheating. Justin Stanley will have an AI PLD session.
3. RSI Sub-Committee Update- Jessica, George, Darlene spoke at great length about the feedback about the rubric. OLAC decided it will continue to look over and discuss recommendations about making changes to the rubric. Once the discuss has finished here in OLAC, it can go to ABC and IDC.
4. OLAC name has changed the C for Council to C for committee based on a vote today.
5. Next Meeting December 1 @ 1:00
