Summary of Current Legislation

BARBARA LARSON

EXECUTIVE VICE PRESIDENT, FINANCE & ADMINISTRATIVE SERVICES

Current Legislation

In 2013, changes to Kansas Law required state and municipal buildings (including JCCC) to either:

- Allow licensed concealed carry inside the building, OR
- Prohibit with appropriate signage and installation of “adequate security measures” as defined by law

At that time, JCCC took the allowed four year exemption

- Set to expire **July 1, 2017**

2015 amendment

- Kansas no longer has a licensing requirement for concealed carry
- Eligibility requirements still apply

Open carry of firearms is still prohibited

Limited guidance and interpretation of the new laws

“Adequate Security Measures”

Concealed handguns . . . shall not be prohibited in any building unless [the]building has adequate security measures to ensure that no weapons are permitted to be carried into [the] building.

“Adequate security measures” means the use of electronic equipment and personnel at public entrances to detect and restrict the carrying of any weapons into [the] building, including, but not limited to metal detectors, metal detector wands or any other equipment used . . . to ensure that weapons are not permitted to be carried into the building by members of the public.

Adequate Security Measures – GEB Building Example

GEB Building 1 First Floor 

Campus Data

Today = approximately 100 public entry points

If consolidated and only 2 entry points per building = 50 public entrances

Others would need to be secured by card access and used by employees only

Current Hours of Operation are 5 AM to 11 PM,
Monday through Saturday, 50 Weeks Per Year

Two Contracted Security Guards per Entrance at
≈ \$20 per Hour

Estimated Costs for One Entrance

≈ \$5,400 for equipment (one time expense)

≈ \$216,000 for personnel costs (per year)
